CONTENTS

Charge ratio analysis method to interpret high resolution electrospray Fourier transform—ion cyclotron resonance mass spectra
Simin D. Maleknia and Kevin M. Downard (Australia) 1

High precision determinations of $^{87}Rb/^{85}Rb$ in geologic materials by MC-ICP-MS
O. Nebel, K. Mezger, E.E. Scherer and C. Münker (Germany) 10

Gas phase studies on terpenes by ion mobility spectrometry using different atmospheric pressure chemical ionization techniques
H. Borsdorf, J.A. Stone and G.A. Eiceman (Canada, Germany, USA) 19

Mass spectrum of the butadiynyl radical (C_4H; $X^2\Sigma^+$)
Xibin Gu, Ying Guo and Ralf I. Kaiser (USA) 29

Evaluation of the $n(^{235}U)/n(^{238}U)$ isotope ratio measurements in a set of uranium samples by thermal ionization mass spectrometry
O. Pereira de Oliveira, W. De Bolle, S. Richter, A. Alonso, H. Kühn, J.E.S. Sarkis and R. Wellum (Belgium, Brazil) 35

Branching and rate coefficients of the HBr^+ + HBr reaction through the isotope-resolved REMPI technique
Andrey E. Belikov and Mark A. Smith (Russia, USA) 43

Electrospray ionization mass spectra of dinucleotide N3′ → P5′ phosphoramidates
Xu Tang, Hua Fu and Yu-Fen Zhao (PR China) 49

Comparison of dissociation mechanism between collisionally activated dissociation and charge inversion using alkali metal targets for chlorophenol isomers
Shigeo Hayakawa, Yoshiaki Kawamura and Yutaka Takahashi (Japan) 56

Book review
Mass Spectrometry in Biophysics—Conformation and Dynamics of Biomolecules
Christoph A. Schalley (Germany) 65

Investigations for determination of Gd and Sm isotopic compositions in spent nuclear fuels samples by MC ICPMS
H. Isnard, R. Brennetot, C. Caussignac, N. Caussignac and F. Chartier (France) 66

Electrospray ionization mass spectrometric study of platinum(II) complexes with 1,3,4-thiadiazoles and dimethyl sulfoxide
Rafał Frański and Błażej Gierczyk (Poland) 74

Abstracted/Contents in:
Chem. Abstr.; Curr. Contents, Phys. Chem. Earth Sci.;
Embase/Excerpta Medica; INSPEC; Mass Spectrom. Bull.; PASCAL/CNRS

(CONTENTS CONTINUED)

Short communication

Identification of mixed-valence metal clusters in drier solutions for alkyd-based paints by electrospray ionization mass spectrometry (ESI-MS)

Fabrizio Miccichè, Marion A. van Straten, Weihua Ming, Eef Oostveen, Jacco van Haveren, Rob van der Linde and Jan Reedijk (The Netherlands) **80**

Investigation of chemical reactions in solution using API-MS

Leonardo Silva Santos, Larissa Knaack and Jürgen O. Metzger (Germany) **84**

Electron-impact dissociative ionisation of the CCl_4 molecule

Borja Sierra, Roberto Martínez, Carolina Redondo and Fernando Castaño (Spain) **105**

Erratum

Erratum to "A detailed comparison of calculated and measured electron-impact ionization cross sections of atoms using the Deutsch–Mark (DM) formalism" [Int. J. Mass Spectrom. 243 (2005) 215–221]

H. Deutsch, P. Scheier, S. Matt-Leubner, K. Becker and T.D. Märk (Austria, Germany, Slovak Republic, USA) **113**

Author index **114**

Subject index **115**

Forthcoming articles ..... **I**

ELSEVIER

International Journal of Mass Spectrometry 246 (2005) 115–116

International Journal of Mass Spectrometry

www.elsevier.com/locate/ijms

Subject index Volume 246

Alkali metal target
Comparison of dissociation mechanism between collisionally activated dissociation and charge inversion using alkali metal targets for chlorophenol isomers, 56
APCI-MS
Investigation of chemical reactions in solution using API-MS, 84

CCl_4
Electron-impact dissociative ionisation of the CCl_4 molecule, 105
Charge inversion mass spectrometry
Comparison of dissociation mechanism between collisionally activated dissociation and charge inversion using alkali metal targets for chlorophenol isomers, 56
Charge ratio
Charge ratio analysis method to interpret high resolution electrospray Fourier transform—ion cyclotron resonance mass spectra, 1
Charge state
Charge ratio analysis method to interpret high resolution electrospray Fourier transform—ion cyclotron resonance mass spectra, 1
Chlorophenols
Comparison of dissociation mechanism between collisionally activated dissociation and charge inversion using alkali metal targets for chlorophenol isomers, 56
Corona discharge ionization
Gas phase studies on terpenes by ion mobility spectrometry using different atmospheric pressure chemical ionization techniques, 19

Dimethyl sulfoxide
Electrospray ionization mass spectrometric study of platinum(II) complexes with 1,3,4-thiadiazoles and dimethyl sulfoxide, 74
Dinucleotide N3′ → P5′ phosphoramidate
Electrospray ionization mass spectra of dinucleotide N3′ → P5′ phosphoramidates, 49
Dissociation mechanism
Comparison of dissociation mechanism between collisionally activated dissociation and charge inversion using alkali metal targets for chlorophenol isomers, 56
Dissociative ionisation
Electron-impact dissociative ionisation of the CCl_4 molecule, 105
Driers
Identification of mixed-valence metal clusters in drier solutions for alkyd-based paints by electrospray ionization mass spectrometry (ESI-MS), 80

Electron impact ionization
Mass spectrum of the butadiynyl radical (C_4H; $X^2\Sigma^+$), 29
Electron-impact
Electron-impact dissociative ionisation of the CCl_4 molecule, 105
Electrospray ionization mass spectrometry
Electrospray ionization mass spectrometric study of platinum(II) complexes with 1,3,4-thiadiazoles and dimethyl sulfoxide, 74
ESI
Charge ratio analysis method to interpret high resolution electrospray Fourier transform—ion cyclotron resonance mass spectra, 1

ESI-MS
Electrospray ionization mass spectra of dinucleotide N3′ → P5′ phosphoramidates, 49
Identification of mixed-valence metal clusters in drier solutions for alkyd-based paints by electrospray ionization mass spectrometry (ESI-MS), 80
Investigation of chemical reactions in solution using API-MS, 84

Fragmentation pathway
Electrospray ionization mass spectra of dinucleotide N3′ → P5′ phosphoramidates, 49
Fragmentation pattern
Mass spectrum of the butadiynyl radical (C_4H; $X^2\Sigma^+$), 29
Free radical
Mass spectrum of the butadiynyl radical (C_4H; $X^2\Sigma^+$), 29
FT-ICR
Charge ratio analysis method to interpret high resolution electrospray Fourier transform—ion cyclotron resonance mass spectra, 1

Gas source mass spectrometry
Evaluation of the $n(^{235}U)/n(^{238}U)$ isotope ratio measurements in a set of uranium samples by thermal ionization mass spectrometry, 35

High precision measurements
High precision determinations of $^{87}Rb/^{85}Rb$ in geologic materials by MC-ICP-MS, 10

Inductively coupled plasma source mass spectrometry
Investigations for determination of Gd and Sm isotopic compositions in spent nuclear fuels samples by MC ICPMS, 66
Ion mobility spectrometry
Gas phase studies on terpenes by ion mobility spectrometry using different atmospheric pressure chemical ionization techniques, 19
Ionisation cross-sections
Electron-impact dissociative ionisation of the CCl_4 molecule, 105
Ion-molecule reaction
Branching and rate coefficients of the HBr^+ + HBr reaction through the isotope-resolved REMPI technique, 43
Iron
Identification of mixed-valence metal clusters in drier solutions for alkyd-based paints by electrospray ionization mass spectrometry (ESI-MS), 80
Isomeric differentiation
Comparison of dissociation mechanism between collisionally activated dissociation and charge inversion using alkali metal targets for chlorophenol isomers, 56
Isotope distribution
Charge ratio analysis method to interpret high resolution electrospray Fourier transform—ion cyclotron resonance mass spectra, 1
Isotope-selective ionisation
Branching and rate coefficients of the HBr^+ + HBr reaction through the isotope-resolved REMPI technique, 43
Isotopic analysis
Investigations for determination of Gd and Sm isotopic compositions in spent nuclear fuels samples by MC ICPMS, 66

doi:10.1016/S1387-3806(05)00243-5

Mass spectrometry
Gas phase studies on terpenes by ion mobility spectrometry using different atmospheric pressure chemical ionization techniques, 19
Branching and rate coefficients of the HBr^+ + HBr reaction through the isotope-resolved REMPI technique, 43
Mass spectrum
Mass spectrum of the butadiynyl radical (C_4H; $X^2\Sigma^+$), 29
MC-ICP-MS
High precision determinations of $^{87}Rb/^{85}Rb$ in geologic materials by MC-ICP-MS, 10
Measurement uncertainty
Evaluation of the $n(^{235}U)/n(^{238}U)$ isotope ratio measurements in a set of uranium samples by thermal ionization mass spectrometry, 35
Metal clusters
Identification of mixed-valence metal clusters in drier solutions for alkyd-based paints by electrospray ionization mass spectrometry (ESI-MS), 80
Microreactor
Investigation of chemical reactions in solution using API-MS, 84

Nuclear safeguards
Evaluation of the $n(^{235}U)/n(^{238}U)$ isotope ratio measurements in a set of uranium samples by thermal ionization mass spectrometry, 35

On-line screening
Investigation of chemical reactions in solution using API-MS, 84

Photoionization
Gas phase studies on terpenes by ion mobility spectrometry using different atmospheric pressure chemical ionization techniques, 19
Platinum(II) complexes
Electrospray ionization mass spectrometric study of platinum(II) complexes with 1,3,4-thiadiazoles and dimethyl sulfoxide, 74

Rare earth elements
Investigations for determination of Gd and Sm isotopic compositions in spent nuclear fuels samples by MC ICPMS, 66
Rate coefficient
Branching and rate coefficients of the HBr^+ + HBr reaction through the isotope-resolved REMPI technique, 43
Reaction branching
Branching and rate coefficients of the HBr^+ + HBr reaction through the isotope-resolved REMPI technique, 43
Reaction mechanism
Investigation of chemical reactions in solution using API-MS, 84
Rubidium isotopes
High precision determinations of $^{87}Rb/^{85}Rb$ in geologic materials by MC-ICP-MS, 10

Tandem mass spectrometry
Electrospray ionization mass spectra of dinucleotide N3′ → P5′ phosphoramidates, 49
Terpenes
Gas phase studies on terpenes by ion mobility spectrometry using different atmospheric pressure chemical ionization techniques, 19
Thermal ionization
Investigations for determination of Gd and Sm isotopic compositions in spent nuclear fuels samples by MC ICPMS, 66
Thermal ionization mass spectrometry
Evaluation of the $n(^{235}U)/n(^{238}U)$ isotope ratio measurements in a set of uranium samples by thermal ionization mass spectrometry, 35
1,3,4-Thiadiazoles
Electrospray ionization mass spectrometric study of platinum(II) complexes with 1,3,4-thiadiazoles and dimethyl sulfoxide, 74

Uranium isotope ratios
Evaluation of the $n(^{235}U)/n(^{238}U)$ isotope ratio measurements in a set of uranium samples by thermal ionization mass spectrometry, 35
